## Company profile

### **NEBROPATH GmbH**

Stadtweide 17  
46446 Emmerich am Rhein, Germany  
tel. +49 (0) 2822 976 8860  
fax +49 (0) 2822 976 8862  
email: [info@nebropath.com](mailto:info@nebropath.com)

With many years of experience NEBROPATH GmbH manufactures and supplies equipment for mortuary facilities, forensic medicine, pathology labs and anatomy. On April 2016, NEBROPATH GmbH has joint forces with ALVO Medical, benefiting from their 25-year-experience in working with surgical teams, architects, planners, medical universities, veterinary clinics and laboratories.

Thanks to high quality products and design flexibility, NEBROPATH GmbH has become a reliable partner, complying with hygiene and safety regulations.

With a human attitude  
towards humans

- PRO-ONE

1

## 1<sup>ST</sup> STEP MEASURING

The first step is to estimate technical conditions and to measure facilities. NEBROPATH team cooperates with laboratory management and staff to deeply understand their tasks and needs to ensure that the proposed solutions reflect their routine practice and will improve working efficiency.

2

## 2<sup>ND</sup> STEP VISUALIZATION

NEBROPATH brings its international experience to both planning and the construction phase of the project, providing knowledge and capability in respect of regional building requirements, cultural aspects and design. Visualization tools help discuss equipment planning for optimal working ergonomics of the future workplaces.

3

## 3<sup>RD</sup> STEP PROJECT DEVELOPMENT AND COMPLETION

Based on approved plans, NEBROPATH prepares the project schedule with all elements of construction. Effective project management ensures smooth completion of construction or modernization and leaves the facility open for future expansion.
